## Jagged Arrays

- by Harsha Vardhan

### Jagged Arrays

- Jagged Array is an “array of arrays”.
- The member arrays can be of any size.

[Row 0]	{ value1, value2 }
[Row 1]	{ value1, value2, value3 }
[Row 3]	{ value1, value2, value3, value4, value5 }
[Row 4]	{ value1 }
[Row 5]	{ value1, value2, value3, value4, value5, value6, value7 }

#### Jagged Array

```
DataType[ ] [ ] arrayReferenceVariable = new DataType[ rowSize ] [ ];  
arrayReferenceVariable[index] = new DataType[ size ];
```
